

Facilities Disposition & Site Remediation
Marolyn Parson, Chair
Tom Barnes, Vice Chair

Marolyn Parson, Chair

Tom Barnes, Vice Chair

This committee addresses the remediation of contaminated soil, groundwater, and surface water. The committee deals with issues related to the Federal Facility Agreement (FFA), risk management/assessment, the regulatory process, and other cross-cutting issues pertaining to environmental restoration. The committee also follows deactivation and decommissioning (D&D) actions taken to reduce risk and costs following shutdown of excess industrial, radioactive, and nuclear facilities. Topics under consideration for the Facilities Disposition and Site Remediation (FD&SR) Committee in 2012 include:

- Facilities Disposition
 - Building 235-F
- Site Remediation
 - Updates
 - Federal Facilities Agreement (FFA) Appendix E
- Projected changes
- Major Proposed changes
 - Annual Integrator Operable Units Program Update
 - Operable Units Project Updates
 - Five-Year Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) Remedy review
 - Revisit of the Area Completion Strategy
- Environmental Monitoring
 - SRS Annual Environmental Report
 - Environmental Sampling and Monitoring in the Central Savannah River Area (CSRA)
 - Advanced Simulation Capability for Environmental Monitoring (ASCEM)
 - Frequency of On-Site Stream Monitoring
- Federal/State Regulatory Oversight of Cleanup Activities
- Environmental Management (EM) Website Improvement Status
- SRS Energy Management Overview
- Savannah River Ecology Update
- SRS Natural Resources Management
