Maria Reichmanis\*  
William Lawrence\*  
Jimmy Mackey\*  
Kathryn May\*  
Beaurine Wilkins\*  
Charleen Townsend

#### **Stakeholders**

Larry Callair

#### **Regulators**

None

#### **DOE/Contractors**

Paul Sauerborn, WSRC  
John Lindsey, WSRC

#### **\* Members of the ER Committee**

**Note:** Sallie Connah, Murray Riley, Perry Holcomb, of the ER Committee were unable to attend meeting.

**Introduction:** Jimmy Mackey introduced himself and then asked that everyone do the same.

**Revised TMDL for Mercury in the Savannah River Basin:** Mr. Mackey asked that everyone please read the latest version of the comments letter that was sent to EPA-Region IV on 1/22/01, it included the comments since the last ER Committee meeting held 1/17/01 in Aiken, S.C. Mr. Mackey indicated that the letter was received by EPA-IV and would be taken under consideration. The attendees agreed that the letter was acceptable as submitted and requested that it be presented to the full CAB as information during the ER Committee update at the full board meeting 1/23/01. Mr. Mackey asked Maria Reichmanis to take the letter forward to the CAB.

**FY2000 ER Cost Savings Accomplishments:** Mr. Mackey stated that there were few changes to the original letter submitted by the CAB ER Committee at the 1/17/01 meeting in Aiken, S.C. There was some discussion as to the letter coming from the CAB or the ER Committee. The consensus of the ER Committee was to have the letter come from the committee and also get the endorsement and signature from Karen Patterson CAB Chairwoman. All agreed that Mr. Mackey present the letter to the full CAB as information during the ER Committee update at the full board meeting 1/23/01.

**Public Comments:** There were no public comments. Ms. Reichmanis thanked the attendees, and the meeting was adjourned.
