As internet technology grows, older tools become outdated, disused, and obsolete.

New ideas, functionality, and avenues of communication become possible.

The future of communication lies online.

# SAVANNAH RIVER SITE - CITIZENS ADVISORY BOARD

AND SOUTH CAROLINA CITIZENS WORKING TOGETHER FOR A BETTER TOMORROW AT SRS

DEPARTMENT OF ENERGY - ENVIRONMENTAL MANAGEMENT SITE-SPECIFIC ADVISORY BOARD

## Welcome To The SRS - Citizens Advisory Board

The Savannah River Site (SRS) - Citizens Advisory Board (CAB) is a part of the Environmental Management Site-Specific Advisory Board (EMSSAB), a stakeholder board that provides the Assistant Secretary for Environmental Management and designees with advice, information, and recommendations on issues affecting the EM program at various sites. Among those issues are clean-up standards and environmental restoration; waste management and disposition; stabilization and disposition of non-stockpile nuclear materials; excess facilities; future land use and long-term stewardship; risk assessment and management; and clean-up science and technology activities.

The board's membership is carefully considered to reflect a full diversity of viewpoints in the affected community and region. Board members are composed of people who are directly affected by DOE site clean-up activities.
