safety ♦ performance ♦ cleanup ♦ closure

Progress in Executing the SRS Strategic Plan

Purpose

Provide a briefing on SRS's progress in executing the SRS Strategic Plan in response to CAB Recommendation # 262, Items 3 and 4

Item 3

Provide an annual briefing to the CAB on SRS's progress in executing the Strategic Plan. Pay particular attention to those areas not routinely covered in DOE-EM program briefings, that is SRNL Technology achievements, SRS Corporate Board successes in helping improve SRS missions and Advances in Management Excellence.

Item 4

Provide a summary of SRNL's business plan to search for increased funding sources other than DOE-EM

Background

The updated SRS Strategic Plan issued in May of 2010 is structured in the following categories:

EM Clean-up Program

Waste Disposition

Nuclear Material

Area Completions

NNSA Program

Defense Program

Nuclear Nonproliferation

SRNL

Critical Support Functions

Safety & Security

Site Services & Infrastructure

Environmental Quality

Management Excellence

58 Strategic Objectives Identified

(Separate Attachment)

Progress in Executing the SRS Strategic Plan

Previous briefings have addressed progress in execution of the EM Clean-up Program and NNSA

Today, there will be two briefings to address execution progress of the SRS Strategic Plan:

Savannah River National Laboratory (SRNL)

Dr. Terry Michalske

Critical Support Functions & Management Excellence

Doug Hintze
