Dear Mr. Deshong,

The Savannah River Site Citizens Advisory Board (SRS CAB) appreciates the opportunity to provide input to the site's prioritized activities for Fiscal Year (FY) 2028. We ask that the budget request for FY 2028 reflect our priorities and be at a level that guarantees compliance with all state and federal agreements.

Regarding all Environmental Management mission activities, we prioritize the program baseline summaries as follows:

1. Radioactive Liquid Tank Waste Stabilization & Disposition (14C)
2. Nuclear Materials Stabilization & Disposition (PBS 11C)
3. Soil & Water Remediation, Facilities D&D (PBS 30)
4. Solid Waste Stabilization & Disposition (PBS 13)
5. Surveillance, Maintenance, and Deactivation (PBS 41)
6. Safeguards & Security (PBS 20)
7. SR National Laboratory (SRNL 100)
8. Community & Regulatory Support (PBS 100)

Thank you for the opportunity to submit our recommended priorities for the budget request for the Savannah River Site for FY 2028.

Sincerely,

Deborah Creech
Chair, SRS Citizens Advisory Board
