

## **SRS Citizen's Advisory Board**

### **Recommendation No. 36**

March 25, 1997

---

#### **Recommendation on the Technology Deployment Initiative**

The SRS-CAB has always supported activities which reduce the time required to clean up the SRS. The Technology Deployment Initiative has the potential for furthering this goal. The CAB supports this initiative, and is providing stakeholder involvement in Phase I, (submission of the initial proposals). The CAB recommends expanded stakeholder involvement in Phase II (submission of the detailed deployment plan).

#### **Agency Response Summary**

DOE thanked Board for supporting SRS efforts to actively pursue funding under the TDI. DOE in process of preparing high quality proposals that will poise SRS for success since funding from TDI is vital to accelerating SRS cleanup and Ten Year Plan goals. During Phase II, DOE will review the detailed deployment plans with and solicit input from CAB ER&WM subcommittee.
