

APR 15 1996

Mr. Bob Slay, Chair  
Savannah River Citizens Advisory Board  
P. O. Box 192  
Beech Island, SC 29842

Dear Mr. Slay:

SUBJECT: Citizen's Advisory Board's (CAB) Tenth Recommendation - Development of a Comprehensive Plan to Remediate Savannah River Site (SRS) (Your letter, 10-03-95)

This is a follow-up to my letter of December 19, 1995, in response to your recommendation for the development of a comprehensive strategic remediation plan for the SRS. Enclosed are 6 copies of the draft SRS Environmental Restoration Program Management Action Plan (MAP) and accompanying Appendix F. An earlier draft was provided to the Environmental Remediation and Future Use Subcommittee at their February 27, 1996, meeting.

In satisfying the subject recommendation, we modified Chapter 5 of the MAP to incorporate the information you requested on strategic planning. In concert with this effort, the MAP includes the draft Federal Facility Agreement (FFA) Implementation Plan (FIP) that we are developing with the Environmental Protection Agency and the South Carolina Department of Health and Environmental Control. The FIP is being developed to further define strategies and protocols in support of implementing the FFA for SRS remediation among the three agencies.

We plan to finalize the FIP and MAP in May and will forward copies to you at that time.

Sincerely,

*Original Signed by  
Mario P. Fiori*
