Ms. Jean Sulc, Chair
Savannah River Site Citizens Advisory Board
24 Harbor River Circle
St. Helena Island, South Carolina 29920

Dear Ms. Sulc:

SUBJECT: Citizens Advisory Board (CAB) Recommendation 188, "Plutonium Disposition"

Thank you for your continued interest in the disposition of nuclear materials at the Savannah River Site (SRS). Over the years, the CAB Nuclear Materials Committee has provided excellent insight and suggestions into the management and disposition of nuclear materials and their associated facilities, including those associated with the disposition of the americium and curium solutions and the F-Canyon solvent.

We understand your concerns and agree to provide an update on the Pu disposition and associated actions by July 26, 2004.

I appreciate your continued focus on SRS activities. If you have any questions, please call me or have your staff contact Sachiko McAlhany at 803-952-4802.

Sincerely,
