

APR 14 1995

Dr. Mildred McClain
720 Maupas Avenue
Savannah, GA 31401

Mr. Robert H. Slay
P.O. Box 192
Beech Island, SC 29842

Dear Dr. McClain and Mr. Slay:

SUBJECT: Status of Citizens Advisory Board's (CAB) Recommendation for
Independent Technical Review of Significant Savannah River Site (SRS)
Environmental Documents, (My letter, 01/20/95)

In the referenced letter, I accepted the CAB's first formal recommendation and undertook the responsibility to ensure its implementation.

The following documents were identified by the Department of Energy (DOE) as documents that would warrant independent technical reviews. These documents have either already been reviewed or are currently in the review process:

- SRS Annual Environmental Report;
- Site Treatment Plan;
- Waste Management Environment Impact Statement; and
- Georgia Tech University's study on indirect exposure due to operation of the Consolidated Incineration Facility.

When additional documents are identified by DOE or the CAB, we will ensure technical reviews are completed, review comments and resolutions distributed to the CAB, and information made available to the public.

Should you need any additional information or if you have any questions, please contact me or Tom Heenan at 803-725-8074.

Sincerely,

Original Signed by
Mario P. Fiori
