Ms. Jean Sulc, Chair
Savannah River Site Citizens Advisory Board
24 Harbor River Circle
St. Helena Island, South Carolina 29920

Dear Ms. Sulc:

SUBJECT: Savannah River Site Citizens Advisory Board Recommendation 225 – Public Notification Requirements for Non-Time Critical Removal Actions (Your letter, 11/16/05)

Thank you for your recommendation concerning improved public notifications on an Action Memorandum associated with Non-Time Critical Removal Actions. Your recommendation and my response follows:

The Department of Energy Savannah River Operations Office (DOE-SR) filed a notice in the Site's *Environmental Bulletin* when the Action Memorandum and response to comments for an Environmental Engineering/Cost Analysis (EE/CA) for a Non-Time Critical Removal Action has been placed in the Administrative Record File/Information Repository File (ARF/IRF). DOE-SR shall do this within 2 weeks following its publication in the ARF/IRF. DOE-SR shall also note the location and/or number in the ARF/IRF of the Action Memorandum and response to comments for the EE/CA being placed therein.

DOE-SR accepts your recommendation, and it will be fully implemented by January 31, 2006.

If you have any questions or need additional information, please contact me or Ms. Helen Belencan, of my staff, at (803) 952-8696.

Sincerely,

A handwritten signature in cursive script, reading "Jeffrey M. Allison".

Jeffrey M. Allison
