Dr. Donald Bridges, Chairperson
Savannah River Site Citizens Advisory Board
P.O. Box A
Aiken, SC 29802

Dear Dr. Bridges:

SUBJECT: Citizens Advisory Board (CAB) Recommendation Number 310: Budget Requests Sufficient for Liquid Waste Milestones. (Your letter dated 09/25/2013)

Thank you for your recommendation on Budget requests sufficient for Liquid Waste Milestones. The Department of Energy Savannah River Operations Office (DOE-SR) accepts your recommendation and provides the following responses to the recommendation:

1. *The Department of Energy include in the 2015 budget request sufficient funding to meet all FFA commitments to clean and close the liquid waste tanks at SRS*

For the Fiscal Year 2015 budget development process, DOE-SR identified and submitted funding requirements in the Integrated Priority List (IPL) needed to meet all Minimum Safe and Regulatory Compliance scope requirements.

2. *In the future, all budget requests will contain sufficient funding to meet FFA requirements in all scenarios submitted.*

DOE-SR will continue to identify and submit funding requirements needed to meet Federal Facility Agreement (FFA) requirements in all future scenarios.

If you have any questions, please contact me or have your staff contact Mr. Doug Hintze, of my staff, at (803) 952-8422.

Sincerely,
