

United States Government

Department of Energy (DOE)

Savannah River Operations Office (SR)

memorandum

DATE: AUG 01 1997
REPLY TO:
ATTN OF: P&BD (Woolsey/803-725-5603)

SUBJECT: Savannah River Site (SRS) Citizens Advisory Board (CAB) Comments on the Accelerating Cleanup:
Focus on 2006, Discussion Drafts

TO: Alvin L. Alm, Assistant Secretary for Environmental Management (EM-1), HQ

The SRS CAB has reviewed both the National and the Site Accelerating Cleanup: Focus on 2006, Discussion Drafts. On July 22, 1997, the CAB submitted several recommendations to SR on various subjects concerning the Site. One of the recommendations (Recommendation No. 41) is concerned with CAB comments on both of the Discussion Drafts. SR supports the national issues/comments that the CAB has endorsed. The CAB comments concerning the Site Discussion Draft will be used by SRS to improve the quality of its next Draft 2006 Plan.

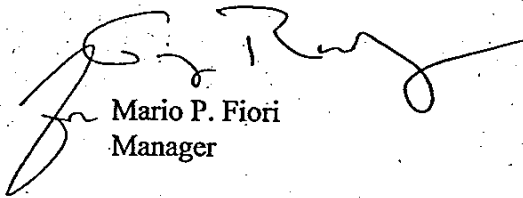

The CAB Recommendation No. 41 is attached for your consideration and implementation of the comments concerning the National Discussion Draft. Please respond directly to the CAB on disposition of their comments.
