AUG 01 1997

Ms. Ann Loadholt, Chairperson  
Savannah River Site Citizens Advisory Board  
P. O. Box 365  
Barnwell, S. C. 29812

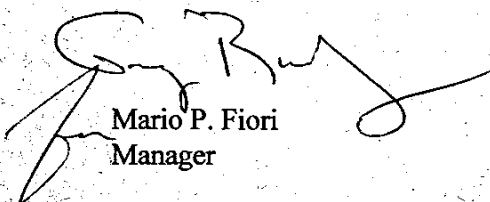

Dear Ms. Loadholt:

SUBJECT: Savannah River Site (SRS) Citizens Advisory Board (CAB) Recommendation  
Number 41 Regarding the National and SRS Accelerating Cleanup: Focus on  
2006, Discussion Drafts

The Department of Energy Savannah River Operations Office appreciates the comments from the CAB concerning both the National and the SRS Accelerating Cleanup: Focus on 2006, Discussion Drafts. The comments obviously resulted from careful consideration of both Discussion Drafts. SR believes that the comments from the Board will prove to be very useful and constructive as we revise the Site Draft in preparation for the next iteration of the Plan, scheduled to be completed in late 1997. The CAB comments concerning the National Plan are being forwarded to Headquarters for their consideration and implementation during the next revision of the focus on 2006 Plan (see enclosed memo). The next iteration of the Plan will also include a comment responsiveness document which will address the disposition of each comment.

Thank you for the SRS CAB recommendations and comments concerning all aspects of SRS missions. Questions concerning this response may be directed to me or Jim Buice of my staff at (803) 725-2263.

Sincerely,

Mario P. Fiori  
Manager
