Dear Dr. McClain and Mr. Slay:

SUBJECT: Foreign Research Reactor (FRR) Spent Nuclear Fuel Environmental Impact
Statement (EIS)

I was very pleased to see the Citizens Advisory Board recommendation pertaining to the FRR Spent Nuclear Fuel EIS.

Since this EIS is under the direct management of Headquarters, we have forwarded your recommendation to the Office of Spent Nuclear Fuel. Savannah River Operations Office (SR) staff has coordinated with the Office of Spent Nuclear Fuel to ensure that your recommendation has been incorporated into the screening and performance criteria for determining a preferred alternative.

SR representatives will provide further details on how this recommendation has been incorporated in the decision making process for the FRR EIS at the Nuclear Materials Management Subcommittee meeting on May 18, 1995.

Thank you again for your recommendation and your interest in Savannah River Site issues. Should you need any additional information or if you have any questions, please contact me or Tom Heenan at 803-725-8074.

Sincerely,

Original Signed by E.S. Chapost for
