Dear Ms. Loadholt:

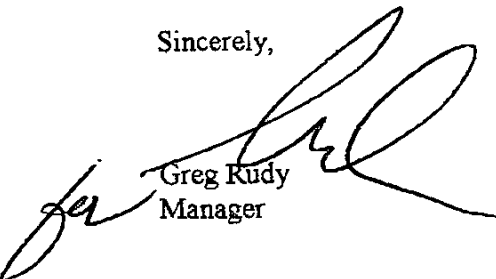

SUBJECT: Acceptance of Citizens Advisory Board Recommendation No. 64

Thank you for the Board's recommendation regarding cleanup of the Savannah River Laboratory (SRL) Seepage Basins.

Representatives of the Department of Energy, South Carolina Department of Health and Environmental Control, and Environmental Protection Agency will meet this month to decide how to proceed with cleanup of the SRL Seepage Basins. We will brief members of the Environmental Restoration and Waste Management Subcommittee on the preferred remedial alternative and revised project schedule before the public comment period on the Proposed Plan begins, and we intend to start fieldwork during 1999.

If you have any questions, please call me or Cynthia V. Anderson at (803) 725-3966.

Sincerely,

Greg Rudy
